

# **Lookeen Search Technology Verified as Citrix Ready to Enhance Citrix Networking and Virtualization Solutions**

## **Lookeen Desktop Search Software is Trusted to Provide an Accurate Search Solution for all Citrix Users**

**KARLSRUHE, Germany - November 5<sup>th</sup>, 2015** – Axonic Informationssysteme GmbH, today announced that Lookeen® Desktop Search has been verified as Citrix Ready®. The Citrix Ready program helps customers to identify third-party solutions that are recommended to enhance virtualization, networking and cloud computing solutions provided by Citrix. The program makes it easy for customers to choose complementary products that can enhance Citrix environments, and trust that these products will work effectively with Citrix solutions.

### **Compatibility assurance**

To qualify for the program, Lookeen Desktop Search completed a rigorous series of tests established by Citrix to ensure compatibility with XenApp® and XenDesktop®. Customers can be assured that Lookeen Desktop Search will deliver fast, reliable, and scalable search on both persistent and non-persistent clients across XenApp and XenDesktop environments.

“Something that many virtual desktop users struggle with is search. Oftentimes, the search applications built into your OS simply do not work in such environments,” said Martin Welker, CEO of Axonic. “Our involvement with the Citrix Ready program demonstrates our commitment to solving this problem for our users and Citrix users. We are proud to provide Lookeen as a Citrix verified solution for Citrix XenApp and XenDesktop.”

### **Effective search across all network environments**

Lookeen Desktop Search is a professional search solution for all users, from SMBs to large enterprises. It is architected to enhance search in virtual environments, like XenApp and XenDesktop, and across multiple file stores. Lookeen enables users to accurately search inside documents (including emails, PDF, Word, Excel, and more), across Outlook®, Exchange Servers, and local and network drives. Lookeen provides a better user experience by providing users with effective and efficient search from a simple interface, and administrators with extensive control over virtual resources.

### **About Axonic**

Axonic Informationssysteme GmbH is focused on information, communication and recognition technologies. For the last few years, Axonic has focused research and development in the field of "communication intelligence" - the targeted analysis, representation and simplification of data

communication. Axonic's flagship product is Lookeen Desktop Search. The company is headquartered in Karlsruhe and was founded in 2003 by Martin Welker. For more information please visit [www.axonic.com](http://www.axonic.com).

### **About Citrix Ready**

The Citrix Ready program identifies verified solutions that are trusted to enhance virtualization, networking and cloud computing solutions from Citrix, including XenDesktop®, XenApp®, Cloud Portal™, XenServer®, NetScaler®. The Citrix Ready designation is awarded to third-party products that have successfully met verification criteria set by Citrix, and gives customers an added confidence in the compatibility of the joint solution offering. The Citrix Ready program leverages industry-leading alliances across the Citrix partner eco-system to meet a wide variety customer needs, and currently incorporates partners who have demonstrated more than 25,000 product verifications. It also includes the Citrix Ready Community Verified program which allows customers to see thousands of products that have been verified by other customers to work in their production environments. More information about the Citrix Ready program can be found at [www.citrix.com/ready](http://www.citrix.com/ready). Reach Citrix Ready using social media via the Citrix Ready blog site and Twitter.
